## Global **AI IN** **COMPUTER VISION** Market

Opportunities and Forecast, 2021-2030

Global AI in Computer Vision Market is expected to reach **\$207.09 Billion** by 2030.

Growing at a **CAGR of 39.60%** (2021-2030)

### AI in Computer Vision Market

The market study incorporates an in-depth analysis of the AI in Computer Vision Market based on the key parameters that take in the drives, sales inquiry, market extents & share. Moreover, the report provides a detailed measurements about the drivers, growth, and opportunities that have a direct influence on the market. The report, further, focuses on assessing the market size of four major regions, namely North America, Europe, Asia-Pacific, and LAMEA. The research study is designed to help the readers with an exhaustive valuation of the current industry trends and analysis.

The report spans the AI in Computer Vision research data of various companies, benefits, gross margin, strategic decisions of the worldwide market, and more through tables, charts, and infographics.

Other important factors studied in this report include demand and supply dynamics, industry processes, import & export scenarios, R&D development activities, and cost structures. Besides, consumption demand and supply figures, cost of production, and selling price of products are also estimated in this report.

## The Study Will Help the Readers-

1. Acknowledge the complete market dynamics.
2. Inspect the competitive scenario along with the future market landscape with the help of different strictures such as Porter's five forces and parent/peer market.
3. Understand the impact of government regulations during the Covid-19 pandemic and evaluate the market throughout the global health crisis.
4. Consider the portfolios of the major market players operational in the market coupled with the comprehensive study of the products and services they offer.

## Main Offerings-

1. The report crafted by AMR on the AI in Computer Vision Market doles out a wide-ranging study of global market share, key determinants of the growth, country-level stance, segmental assessment, market prospects, and the major trends.
2. Porter's five forces model, on the other hand, cites the efficacy of buyers & sellers, which is important to help the market players implement fruitful stratagems. Furthermore, the research study includes,
  - Threat of new competitors
  - Threat of new stand-ins
  - Bargaining clout of suppliers as well as consumers
  - Rivalry among key players
3. An explicit analysis of the driving and restraining factors of the global AI in Computer Vision Market is also provided in the report.

## Key Market Players-

The AI in Computer Vision Market also focuses on the key players operating in the sector. Their product portfolio, business tactics, company profiles, and revenue share are also perfectly delineated in the report. Finally, the study delineates the strategies such as partnership, expansion, collaboration, joint ventures, and others implemented by the frontrunners to heighten their status in the sector.

Top Market Players Change the View of the Global Face of AI in Computer Vision Industry: NVIDIA

Corporation (U.S.), Intel Corporation (U.S.), Microsoft Corporation (U.S.), AWS (U.S.), IBM Corporation (U.S.), Facebook (U.S.), Google (U.S.), Qualcomm (U.S.), Xilinx (U.S.), and BASLER AG (Germany).

## COVID-19 Scenario-

The research study showcases the thorough impact analysis of COVID-19 on the global AI in Computer Vision Market. The unprecedented situation had distressed the global economy and the AI in Computer Vision Market was impacted badly, especially during the initial phase. The report also takes in the details about the market extents during this pandemic. Moreover, the study provides a large-scale study of the policies & plans executed by the key players all over this term. At the same time, it also cites the post-pandemic scenario, since the majority of government bodies have come up with slackening measures on the existing rules, when major vaccination drives have also been initiated across the world. With this drift on board, the global AI in Computer Vision Market is projected get back on track very soon.

## Key Market Segments

### By Component

- Hardware

- o Processor

- CPU

- GPU

- ASIC

- FPGA

- o Memory

- o Storage

- Software

### By Function

- Training

- Inference

## By Application

- Industrial
- Non-industrial

## By End Use

- Automotive
- Consumer Electronics
- Healthcare
- Agriculture
- Transportation & Logistics
- Retail
- Security & Surveillance
- Manufacturing
- Others
