LONDON, UK, March 21, 2022

[/EINPresswire.com/](http://EINPresswire.com/) -- SMi is delighted to announce the 6th annual Pre-Filled

Syringes West Coast conference, to be held in San Diego. As part of SMi's leading series of drug delivery device conferences, the 2022 event will provide insights into the rapidly accelerating market of combination product development with industry, device developer and regulatory perspectives.

The last year has seen major advances in device design and development with patient usability, ease of use and safety remaining at the forefront. This upcoming conference will assess the industry movement towards enabling self-administration through advanced device design, innovations in connectivity to aid the user, and the increasing importance of [biologics](#) and novel drug product considerations for device development. Furthermore, regulatory bodies and leaders from big pharma will give an international update on the fast-evolving industry landscape. As one of our most sought-after events, this conference is not to be missed.

This two-day agenda offers you peer-to-peer networking with Global Product Managers, Senior PFS Engineers, Device Testing Managers, Heads of Late-Stage PFS Development and many more.
