

# Decision Intelligence Market to Hit \$3.43 Billion in 2021-2030 | Decision Intelligence Industry exhibit a CAGR of 6.2%

*Need to make fast and accurate decisions for better outcomes and increasing need for multiple problem-solving*

VANCOUVER, BC, CANADA, March 21, 2022 /EINPresswire.com/ -- The latest market intelligence study on the [Decision Intelligence market](#) brings in the best of both qualitative and quantitative assessment techniques to explore the market size, share, and status of the Decision Intelligence market for the forecast period, 2021 - 2028

decision intelligence market size reached USD 10.30 Billion in 2020 and is expected to register a revenue CAGR of 13.7% during the forecast period, according to latest analysis by Emergen Research. Increasing need to make fast and accurate decisions for better outcomes and increasing need for multiple problem-solving options are expected to support market revenue growth between 2021 and 2030. In addition, increasing need for making more accurate data-driven decisions will boost revenue growth of the market. Effective decision making is a major problem in organizations, and better decision making and evaluating tools to make business-critical decisions are required to resolve challenges.

Decision intelligence solution helps organizations to achieve better decisions, accommodate uncertainty factors, and improve their respective decision models. Companies are incorporating Artificial Intelligence (AI) to increase flexibility and differentiate their respective offerings. In addition, decision intelligence enhances the continuity of cross-organizational decision-making by designing models aimed at enhancing traceability, replicability, relevance, and trustworthiness. As a result, organizations can make more effective data-driven decisions.

The research takes a closer look at prominent factors driving the growth rate of the prominent product categories across major geography. Furthermore, the study covers a lot of the sales,

gross margin, consumption capacity, spending power and customer preference across various countries. The report offers clear indications how the Decision Intelligence market is expected to witness numerous exciting opportunities in the years to come. Critical aspects including the growing requirement, demand and supply status, customer preference, distribution channels and others are presented through resources such as charts, tables, and infographics.
