

Orthopedic Implant Antibacterial Coatings Surface Treatment Market Current Trends and Future Scenarios

Orthopedic implant antibacterial coatings surface treatment market provides an in-depth analysis of the market with current trends and future estimations.

PORTLAND, OREGON, UNITED STATES, March 22, 2022 /EINPresswire.com/ -- Orthopedic implants containing antibacterial coating inhibits the growth of microorganism on the implants to prevent infection within the body.

Growth in awareness regarding bacterial infections, increase in demand for coated implants to prevent infection, and rise in prevalence of bacterial infections drive the market growth. However, health concerns using titanium as a coating material for implants and high cost of coatings restrain the market growth. Moreover, development of effective antibacterial implants and growth opportunities in the emerging economies of Asia-Pacific and LAMEA are expected to provide numerous opportunities for the market growth during the forecast period.

Some of the key players in the market are Pertinax Pharma Limited, HeiQ Materials AG, Ai2 Ltd, Microbe Investigations AG, Curza, BioCote Limited, Allvivo Vascular, Inc., Matera, Agienic Inc., and Kastus.
