

# Assistive and Rehabilitation Robotic Market Trends, Key Players, DROT, Analysis & Forecast Till 2027

*A novel report on Global Assistive and Rehabilitation Robotic Market Size Market has been published by Reports and Data*

NEW YORK, NY, UNITED STATES, March 22, 2022 /EINPresswire.com/ -- A novel report on Global [Assistive and Rehabilitation Robotic Market](#) Size Market has been published by Reports and Data to offer comprehensive

market analysis along with current and emerging trends. The global Assistive and Rehabilitation Robotic market is expected to reach a substantially large market size in 2027 and register a high CAGR over the forecast period. Industry analysis indicates that the rising demand for Assistive and Rehabilitation Robotic among end-users, including rehabilitation centers and hospitals, is driven by changing market trends, which are expected to support industry growth as well as market growth over the forecast period.

Introduction of new devices and high investments by key market players in design and development of new and innovative Assistive and Rehabilitation Robotic are major factors projected to boost growth of the Assistive and Rehabilitation Robotic market over the forecast period. Growth of elderly population and rising incidence of stroke and other diseases, including cerebral palsy, multiple sclerosis, and Parkinson's disease, which can render individuals immobile are other factors boosting market growth.

Market Dynamics:

The global Assistive and Rehabilitation Robotic Market Size market is expected to register significant revenue CAGR over the forecast period. The information and communication technology sector comprises various sectors including hardware, software, telecommunications and other services which are widely used in several sectors including agriculture, healthcare, commercial, industrial, pharmaceutical, and BFSI. The global market revenue growth is

Reports And Data

significantly driven by factors such as rapidly growing industrial and commercial sectors, increasing adoption of digitalization and rapid advancements in ICT sector. Other factors such as high adoption of latest smart devices such as smart phones, mobiles, laptops, computers, increasing investments in the ICT sector, rising demand for high speed internet and high risks of data leakage and data security are expected to fuel global market growth during the forecast period. In addition, rising need for managing large data, and increasing adoption of cloud services and advanced technologies such as IoT and AI are other factors expected to boost market growth going ahead.

#### Report Scope:

The report offers comprehensive assessment of competitive landscape with a special focus on the key strategic initiatives such as mergers and acquisitions, collaborations, partnerships, and agreements undertaken by the key companies. It also sheds light on the recent product launches and brand promotions to predict revenue contribution and revenue growth over the forecast period.

#### Key Players Operating in Global Assistive and Rehabilitation Robotic Market:

ReWalk Robotics  
AlterG, Inc.  
Bionik Laboratories Corp  
Ekso Bionics  
Vincent Medical  
DIH Technologies Corporation (Hocoma)  
CYBERDYNE, INC.  
Kinova, Inc.  
Rex Bionics Ltd.  
Instead Technologies, Ltd.

#### Global Assistive and Rehabilitation Robotic Market: Regions Covered Global Assistive and Rehabilitation Robotic Market: Regions Covered

North America  
Europe  
Asia Pacific  
Latin America  
Middle East & Africa

#### Global Assistive and Rehabilitation Robotic Market: Report Highlights

Detailed overview of the Assistive and Rehabilitation Robotic market  
Changing dynamics of the Assistive and Rehabilitation Robotic market  
Assistive and Rehabilitation Robotic market segmentation  
Regional landscape of the Assistive and Rehabilitation Robotic market  
Evaluation of the Assistive and Rehabilitation Robotic market based on the present and past data collected  
Historical, present, and projected Assistive and Rehabilitation Robotic market, in terms of volume and value  
Recent trends and developments in the Assistive and Rehabilitation Robotic market  
Competitive landscape of the Assistive and Rehabilitation Robotic market  
Strategies adopted by key players and products offered by them in the Assistive and Rehabilitation Robotic market

## Global Assistive and Rehabilitation Robotic Market: Segmentation

The report consists of forecasts for the Assistive and Rehabilitation Robotic market at the global, regional, and country levels. The report contains analysis of trends in each segment of the market for the period from 2017 to 2027. For this study, Reports and Data has segmented the Assistive and Rehabilitation Robotic market based on type and end-user as follows.

By Type (Revenue, USD Million; 2017-2027)

Therapeutic Robots

Assistive Robots

Others

By End-user (Revenue, USD Million; 2017-2027)

Rehabilitation Centers

Hospitals

Others
