

Launching Zen Tax Clinic, a one-stop solution for GST litigation

COIMBATORE, TAMILNADU, INDIA, March 22, 2022 /EINPresswire.com/ -- Zen Tax Clinic announced the launch of its FinTech platform that aims to overcome the hassles of GST Litigation. GST is still a complicated scenario for taxpayers, though it was introduced almost five years back.

SMEs and Corporates have started to get departmental notices even in the case of minor lapses. If not addressed in time, non-compliance could lead to penalties of up to 100% of the total amount. It requires expert legal drafting and interpretation skills to handle them. The lack of qualitative legal services proves a hindrance to offering appropriate responses. Tax authorities also face heaps of pending cases due to a lack of timely responses.

Zen Tax Clinic's FinTech platform offers holistic value added solutions for corporates, SMEs and big and small businesses of all sizes. Taxpayers get correct advice to handle notices and draft professional replies. The timely responses help tax authorities dispose of cases quickly and offer fair justice to the taxpayer.

Zen Tax Clinic offers a dedicated online portal and mobile app where service deliveries have a 48-hour turnaround time. Corporates can also get assistance for fact collection, attending personal hearings through representatives, support for departmental audits, and pre-notice consultation.

Here's how the Zen Tax platform works for seamless compliance benefits.

First factual analysis within 8 hours
