"Through this smart platform, every user can get accurate data and information that is relevant to their business needs and interests. All data and information presented in this business information platform is real time and its validity guaranteed, so it is very potential and appropriate to be used as a reference and reference for users, ranging from companies, investors, startups, and professionals," said Maya Miranda Ambarsari, President Commissioner of PT.Teknologi Cakra Internasional.

To realize the vision for InterconnectDATA, Maya Miranda Ambarsari, a president commissioner, Andreas Reza, the commissioner, and Rany Fardiany, the Chief Executive Officer, worked tirelessly to launch this authentic data platform. They explain, "It started with a big question. How to find authentic data and information platforms to make the best decisions. With the answers to these questions presenting limitless opportunities, InterconnectDATA was born."

Forming strong partnerships in the industry has helped propel InterconnectDATA and their parent company Teknologi Cakra Internasional to the forefront. They have managed to partner with S&P Global, Statista, and the IDX Indonesia stock exchange. "We work with partners around the world from individual Employers and regional startups to multinational enterprises In the public and private sectors, government, and communities."

As the new age of technology continues to lay claim on every industry, Artificial Intelligence is increasingly seeping into data and analytics. This has enabled platforms like InterconnectDATA to provide smart ways for industry professionals to gather insights around funding, acquisitions, events, and news in their industry or area of interest.
