

CloudWorks4All and OrchardHouse Selected by Major Biopharma

CloudWorks4All & OrchardHouse Selected by Biopharma to Integrate SAP® Business ByDesign® and Validation Services to Deliver Digital GAMP® 5 Manufacturing

RENO, NV, USA, March 23, 2022

/EINPresswire.com/ -- CloudWorks4All (CW4A), an expert cloud enterprise resource planning (ERP) systems integrator, is partnering with UK-based [OrchardHouse](#) to implement one of the best cloud ERP solutions, SAP® Business ByDesign®, and an integrated validation service for a major biopharma organization with offices in Germany, the UK, and the USA. The validation service will enable the system to be audit-ready in both the UK and USA.

CloudWorks4All, based in the US, will validate the SAP Business ByDesign application together with the associated integrations, and customizations.

The new system will deliver a digital GAMP 5 solution guaranteeing the high standard of quality, reliability, and safety required by the biopharma contract development and manufacturing organization (CDMO) as they continue their expansion in viral vector manufacturing.

When comparing the different systems and top solution integrators the customer saw that many lacked the experience and know-how to deliver validated processes. The CDMO selected CW4A and OrchardHouse for their in-depth understanding of the product and industry. SAP Business ByDesign provides excellent implementation methodology, OrchardHouse offers a Pharma Template with defined processes, and CW4A completes the solution with their rapid validation service.

This is the first time any SAP Business ByDesign partnership has offered validation as a service package. CloudWorks4All's proprietary service will ensure the company and SAP Business ByDesign meet audit-readiness – not only initially but on an ongoing basis.

“That’s a huge headache removed from the client-side, and the service will save them

considerable upfront and recurring costs,” commented Hans Hansen, CEO, CloudWorks4All.

“This transatlantic collaboration draws on the expert knowledge of OrchardHouse and CloudWorks4All within the Life Science and Pharma industries. We’re looking forward to working together to deliver another successful customer” said Greg Durrans, CEO, OrchardHouse.

The global viral and non-viral vector manufacturing market is seeing substantial growth forecasts from 2022 to 2031. Valued at \$1.50 billion in 2020, the market is expected to reach \$27.03 billion by 2031, according to [ResearchAndMarkets](#).

CloudWorks4All, a leading cloud ERP systems integrator, offers a smarter way to customize clients’ software implementations, and deliver secure and reliable application management services. With a unique approach and a worldwide network of top-tiered SAP partners, CloudWorks4All provides best-in-class consulting and client services to help companies gain a competitive edge and grow their businesses.
