Norman Kutemperor was chosen for this distinguished panel for his expertise and leadership in Big Data technologies and related topics. Norman Kutemperor will speak about this New Era in Interrelated technologies specifically regarding the relationship between Big Data, Artificial Intelligence and Machine learning.

About Scientel

Scientel Information Technology, Inc. is a U.S.-based, systems technology company. Scientel also designs/produces highly optimized high end servers, which can be bundled with its "GENSONIX® ENTERPRISE" DBMS software, as a single-source supplier of complete systems for Big Data environments. Scientel also customizes hardware and software for specific applications resulting in higher performance.

Scientel's specialty is advanced NewSQL DBMS design and applications/systems integration for advanced business processes. This includes applications for Big Data, commercial intranets, Supply Chain management, IT consulting, support, etc., along with "beyond mainframe-level" Large Data Warehouse Appliance hardware/systems.

GENSONIX allows very user-friendly data manipulation capabilities found in standard, SQL-based, database management systems, but it goes beyond. It is truly an "ALL-in-One SQL" -- an "All Data Management System" in the form of an ultra-flexible, NewSQL DBMS of perfectly general capabilities and application potentials. It can also function in concert with mainline SQL systems to efficiently handle both structured and unstructured data as a large data warehouse repository. However, it can handle heavy database loads by itself with the aid of the GENSONIX® NSQL™ query/procedural language. GENSONIX® supports both telnet as well as http interfaces. GENSONIX® is capable of handling trillions of rows/transactions for billions of customers, which is a huge advantage in "truly Big Data" structured applications.

Business customers can take advantage of Scientel's capabilities in advanced Business Intelligence and Data Analytics to grow their business by handling Big Data more cost-effectively
