

# Curcumin Market Scope, Demand, Supply Analysis and Business Opportunities By 2027 | Reports and Data

*The global Curcumin Market is forecasted to reach USD 135.4 Million by 2027, according to a new report by Reports and Data*

NEW YORK CITY, NEW YORK, USA,  
March 24, 2022 /EINPresswire.com/ --

This global [Curcumin Market](#) study report is a comprehensive analysis of the industry offering historic and forecast assessment of the global market. Along with SWOT analysis and Porter's Five Forces analysis, the report also covers feasibility analysis and investment return analysis. Key statistical data has been organized into charts, diagrams, bar graphs, figures, and other pictorial representation. The report also offers strategic recommendation to key players and new entrants to overcome challenges and gain a robust footing in the market.

Reports And Data

The global Curcumin Market is forecasted to reach USD 135.4 Million by 2027, according to a new report by Reports and Data. The market is witnessing a surge in demand owing to the rising customer consciousness about the health benefits and therapeutic properties of curcumin. Moreover, the rising trend of using natural ingredients in cosmetic products is fostering the market demand. However, the availability of cheaper synthetic products is hampering the growth of the market.

The report offers a thorough analysis of the regions with regards to production and consumption patterns, supply and demand dynamics, import/export, technological and product advancements, current and emerging trends, consumer demands, consumer behavior shifts, and presence of key market players in each region. The report also covers a comprehensive country-wise analysis to impart better understanding of the scope and growth of the market.

Key Companies In The Industry:

Key participants include SV Agrofood, Biomax Life Sciences Ltd., Konark Herbals and Health Care, Star High Herbs Pvt. Ltd., Hebei Food Additive Co. Ltd., Arjuna Natural Extracts Ltd., BioThrive Sciences, Synthite Industries Ltd., Herboveda India Pvt. Ltd., and Hindustan Mint & Agro Products Pvt. Ltd., among others.

Further key findings from the report suggest:

- The largest application of curcumin is in the pharmaceutical sector, and it occupied 55.7% of the market in 2019. This is primarily because of the increasing awareness regarding the health benefits of curcumin.
- The food-grade sub-segment occupied 36.2% of the market in 2019, mainly due to the increasing use of curcumin in food in the developed countries and developing countries like China and India. Food-grade is forecasted to grow at a CAGR of 11.7% in the forecast period.
- Offline stores dominated the distribution channel and occupied 77.18% of the market share in 2019. The major reason behind this is that internet penetration is low in many areas, and the majority of the population still prefers to buy groceries offline in developing countries.
- North America dominated the market for curcumin in 2019. The reason behind this is that the population in this region is highly educated, and hence consumer awareness regarding the health benefits and cosmetic applications is high.
- India is the largest producer of curcumin, majorly because of the large applications of curcumin in the food segment, apart from the pharmaceutical and cosmetic segment, which is also prevalent in the rest of the world. India is responsible for about 80% of the production of curcumin in the world and is accountable for 60% of the exports.
- In March 2017, Arjuna Natural Extracts Ltd. invested USD 1.5 Million in the research and development of proactive curcumin. This is expected to drive the demand for the market.
