

# Telephone Answering Machine Market: Technology Advancement and Business Outlook 2029

*Telephone answering machine is an electronic device that allows users to record and answer the call or messages in the absence of a receiver.*

PORTLAND, PORTLAND, OR, UNITED STATE, March 24, 2022

/EINPresswire.com/ -- The global [telephone answering machine market](#) is expected to register substantial growth in the near future, attributed to the availability of telephone answering machines at a low price and at remote accessibility. However, factors such as increasing the mobile phone penetration, rapid adoption of voice over Internet protocol (VoIP), and free calling apps are expected to restrict the growth of the market.
