

Fluoramics Introduces LOX-8 Plumber's Putty

Putty resistant to harsh chemicals and suitable for lab sinks, drains, and cleanouts

WINONA, MINN., USA, April 18, 2022 /EINPresswire.com/ -- In response to customer's needs for a chemical-resistant plumber's putty, [Fluoramics](#) recently released a new product, [LOX-8 Plumber's Putty](#), which is engineered to use with acids, plus alkaline and caustic chemicals.

LOX-8 Plumber's Putty is a non-hardening, non-flammable chemical-resistant plumber's putty that will not degrade and leak like other putties. Use it with Orion, Watts and other chemical waste floor drains, cleanouts, sinks, and sink drains in laboratories, medical facilities, and other places which use aggressive chemicals.

“

Our goal is to help customers solve problems and I'm pleased to say we successfully developed LOX-8 Plumber's Putty as a solution to failing drainage systems where harsh chemicals are used.”

Gregg Reick, President and Chief Engineer of Fluoramics

“Our goal is to help customers solve problems and I'm pleased to say we successfully developed LOX-8 Plumber's Putty as a solution to failing drainage systems in situations where harsh chemicals are used,” said Gregg Reick, Fluoramics' President and Chief Chemical Engineer.

[LOX-8 Plumber's Putty is available](#) in both a 1/8 lb. jar/56 g (part 9722167) and a 1 lb. jar/454 g (part 9722168).

LOX-8 Plumber's Putty is easy to apply: simply warm the putty in your hands, roll it into rope-like strands and apply it to clean and dry areas on traps, sinks and drains as

usual.

LOX-8 Plumber's Putty is part of the LOX-8 family of products. Other items in the family include oxygen-safe LOX-8 Paste, oxygen-safe LOX-8 Grease, LOX-8 LD, and LOX-8 NF Oil. LOX-8 products are silicone-free sealants and greases especially suited for use where harsh chemicals such as

Fluoramics, Inc.: 902 East 2nd St., Suite 326, Winona, MN 55987

chlorine and powerful oxidizers are present.

Fluoramics, Inc. is a leading manufacturer of sealants, greases, lubricants, and rust inhibitors, all of which are engineered PTFE solutions. Founded in 1967, the company is based in Winona, Minnesota, and proudly manufactures all its products in the United States.
