Teela Fehrenberg's world is shattered when she finds out her family (the Fehrenbergs) and her boyfriend's family (the Klauzers) come from a long line of witches, dating back to the Salem witch trials in 1692. As if that isn't enough, her parents also reveal that an ancient witch called Feever had cast a curse on both families and would soon awaken from her 300-year-old slumber. Fear is high and anger is mighty as Feever is due to appear every three weeks to claim a victim, as per the curse's terms. With no way to stop the curse and no real way to defend themselves with magic yet, the Fehrenberg and Klauzer family go on the run. But when all is said and done, how do you defeat a witch with a centuries-old vendetta? A vendetta no one, besides Feever herself, knows about. A vendetta that's soon to be revealed.
