

## Growing awareness about health and fitness would drive the growth of Asia-Pacific Fitness Equipment Market | AMR

India would witness the highest growth, followed by China. The fitness equipment market in India would grow at a CAGR of 8.8% during 2015 - 2020

PORTLAND, 5933 NE WIN SIVERS DRIVE, #205, OR 97220, UNITED STATE, March 28, 2022 /EINPresswire.com/ --<u>Fitness Equipment Market</u> Report, published by Allied Market Research, forecasts that the APAC market is expected to garner \$2.4 billion by 2020, registering a CAGR of 7.5% during the period 2015-2020. Rapidly growing youth population with rising

Asia-Pacific Fitness Equipment Market

disposable income and the growing awareness about health and fitness, would drive the growth in Asian countries such as China and India. By 2020, the adoption of fitness equipment by health clubs would contribute about 47% of the Asia-Pacific fitness equipment market revenue. Among the different types of fitness machines, cardiovascular fitness equipment would dominate the market throughout the analysis period.

As a result of unhealthy eating habits and hectic lifestyle, the count of obese or overweight population is on rise in Asian countries. In order to overcome the problems associated with obesity, people are preferring physical workouts. The cardiovascular equipment market is benefited due to the increased preference of weight management exercises. As a result, the market of cardiovascular exercise equipment continues to be a significant contributor, accounting for over half of the total revenue of the Asia-Pacific fitness equipment market, throughout the analysis period.

Ask for sample copy of this report >>> <u>https://www.alliedmarketresearch.com/request-</u> <u>sample/1168</u> Among the end user segments, health clubs would significantly drive the fitness equipment market growth as these are the most preferred workout stations for a significant proportion of population under the age of 50 years. The business of health clubs across Asia is expected to grow by at least \$10 billion in next few years. A significant proportion of this business would be reinvested into purchasing or upgrading the fitness equipment, eventually driving the market of equipment across Asia-Pacific. Additionally, the adoption from other commercial users such as hotels, hospitals and corporate offices would rise rapidly during the forecast period. Several leading industry players such as Technogym, Johnson Health Tech Ltd. and Precor offer customized product portfolios in the commercial user segment.

The presence of the leading global players as well the domestic companies is observed in the Asia-Pacific fitness equipment market. Domestic players compete with branded products from international players, who operate through strong distribution channels. To sustain the competitive market, many leading companies such as Amer Sports, Nautilus and Cybex International are launching new products and partnering with other companies. The report covers a detailed study of key players such as Amer Sports, Nautilus Inc., Konami Corporation, Brunswick Corp., Cybex International Inc., ICON Health & Fitness Inc., Johnson Health Tech Ltd., Technogym SpA, Impulse Health Tech Ltd. Co. and Shuhua Co. Ltd.

Report Highlights:

- Detailed overview of parent market
- Changing market dynamics in the industry
- In-depth market segmentation
- Historical, current and projected market size in terms of volume and value
- Recent industry trends and developments

- Competitive landscape
- Strategies of key players and products offered
- Potential and niche segments, geographical regions exhibiting promising growth
- A neutral perspective on market performance
- Must-have information for market players to sustain and enhance their market footprint

Key offering of the Report:

Key driving factors: An in-depth study of the dynamic factors such as drivers, restraints, challenges, and opportunities

Current market trends & forecasts: A comprehensive study of the the Asia-Pacific Fitness Equipment Market along with recent market trends and forecasts during the forecast period to help customers make an informed decision and formulate lucrative business strategies Segmental Analysis: A study of each segment coupled with driving factors and growth rate analysis of every segment

Geographical analysis: An in-depth analysis of the market across several geographical regions that help market players to leverage fruitful market opportunities

Competitive landscape: A study of prime market players that are currently leading the Asia-Pacific Fitness Equipment Market
