NEW YORK CITY, NEW YORK, USA,
March 28, 2022 /EINPresswire.com/ --
The global [Hydrolyzed Beef Collagen Market](#) is forecast to reach USD 497.6 Million by 2027, according to a new

report by Reports and Data. The increasing demand for hydrolyzed beef collagen as a nutritional supplement and vital ingredient in lotions and soaps, along with the rising awareness of minimally invasive surgeries, drives the growth of the global collagen market. Growing geriatric population across the globe is increasing the demand for the product. The geriatric population is more prone to diseases due to the reduced immunity in their body. The market product also have efficient wound healing properties. According to the International Osteoporosis Foundation, around 200 million people suffer from this disease. Osteoporosis was found in 2/5th of women aged 80, 2/3th of women aged 90, 1/10th of women aged 60, and 1/5th of women aged 70.

However, the restrictions related to bovine-derived collagens from a religious standpoint, have allowed medicine manufacturers to go for marine animals as a source of collagen. Recently, hydrolyzed beef collagen is also sold as a pill that can be used as a supplement to help with joint mobility. Factors like these are projected to drive the market growth during the forecast period. Get a sample of the report: <https://www.reportsanddata.com/sample-enquiry-form/2755>
