“ FameNet ” – An AI based Influencer Marketing Platform.

FameNet aims to assist all types of enterprises and brands in identifying the most appropriate collection of Influencers across the industry to market their products and services to the most suitable clients at very competitive prices.

FameNet's decentralized protocols eliminate the requirement of intermediaries during transactions, which to a greater extent democratize our plat-forms for the mutual benefits of creators and participants. FameNet will provide more transparent and trustless output and can nullify data theft and hacking fear.

FameNet will help brands to run impactful and ROI driven influencer marketing campaigns through accurate realtime data, quick influencer discovery, and expert campaign strategies.

FameNet addresses the issues of data ownership, protection, and privacy. Thus FameNet will lead to the evolution of the decentralization marketing process by disrupting the influencer marketing industry.
