

Healthcare Distribution Market Top Key Manufacturer, Emerging Technologies, Covid – 19 Outbreak Trends, Forecasts 2028

Healthcare Distribution Market Size – USD 808.13 Billion in 2020, Market Growth – at a CAGR of 7.0%

VANCOUVER, BC, CANADA, March 28, 2022 /EINPresswire.com/ -- The rising demand for the [healthcare distribution market](#) products is expected to drive the demand for Healthcare Distribution Market, thereby bolstering the growth of the industry. Moreover, the report also studies the impact of the COVID-19 pandemic on the market. The report also talks about the shift in demands and emerging trends that are expected to drive the growth of the market.

Emergen Research Logo

The global healthcare distribution market size is expected to reach USD 1,384.59 Billion in 2028 and register a steady CAGR over the forecast period, according to latest analysis by Emergen Research. Steady market revenue growth can be attributed to increasing healthcare burden of chronic diseases among the growing geriatric population. Governments in developing countries are increasingly focusing on promoting healthcare utilization as a vital policy to enhance health outcomes and meet international obligations to make health services broadly accessible. Advancements in research have resulted in development of next-generation and innovative and high-value or specialty medicines that are utilized to treat complex or rare chronic conditions.

Key participants include : McKesson Corporation, Cardinal Health, AmerisourceBergen Corporation, Owens & Minor, Morris & Dickson Co. L.L.C., CuraScript SD, FFF Enterprises, Inc., Medline Industries, Attain Med, Inc., and Dakota Drug.

Key Highlights of Report :

Pharmaceutical product distribution services segment accounted for largest revenue share in 2020. Favorable investments on research and development activities for the development of pharmaceutical products is supporting growing demand and driving growth of the pharmaceutical product distribution services segment.

Retail pharmacies segment revenue is expected to expand at a rapid CAGR during the forecast period. Availability of health and wellness services in retail pharmacies and timely delivery of mail order pharmacies is driving rising consumer preference towards retail pharmacies.

North America accounted for largest revenue share contribution to the global healthcare distribution market in 2020. Increasing prevalence of chronic diseases like diabetes, obesity, and cardiovascular diseases among the growing geriatric population is driving demand for distribution services for pharmaceutical and biopharmaceutical products.

Market Drivers:

The constant efforts of prominent players to develop newer and modern technologies and product advancements are expected to drive the growth of the industry over the coming years. The report studies the extensive business expansion plans and advancements in R&D activities and product portfolio. The report offers a clear understanding of the alliances in the market, such as mergers and acquisitions, joint ventures, collaborations, partnerships, agreements, product launches and brand promotions, and corporate deals.
