

Enshored Accelerates Growth with Opening of New European Headquarters

Enshored's new European office supports the company's ongoing strategic growth plan.

LONG BEACH, CALIFORNIA, USA, March 28, 2022 /EINPresswire.com/ --

[Enshored](#), a leading business process outsourcing company, has today announced the opening of its new European Headquarters. The European office supports the company's ongoing strategic growth plan.

The new European headquarters will be in Lisbon, Portugal, and will offer voice, chat, and email services initially, with plans to expand services in the near future. The new location will also allow Enshored to extend their technical support capabilities, and support clients who want to reduce operational risks around having whole teams in a single site.

Commenting on the announcement, Ian Jackson, CEO of Enshored, said: “Europe has been on our mind for a few years, and with the challenges from the pandemic now better handled, it is finally time to open Enshored Europe. With so many great tech hubs in Europe, there were plenty of options, but Lisbon soon became the obvious choice for us. With their progressive laws on working from home, and the wide range of language and technical capabilities the city offers, I’m excited to see what this new chapter brings. We expect to grow the team to 50-100 in the first year, with a target to scale to 500 by 2024.”

“

With their progressive laws on working from home, and the wide range of language and technical capabilities, Lisbon was the obvious choice for us.”

Ian Jackson, CEO of Enshored

This new location will allow Enshored to:

- Increase global headcount to support new and existing projects
- Expand its geographic footprint to cover more time zones
- Increase language capabilities to cover all major European languages
