

# CellCore Provides Cutting-Edge Education at Their Muscle Testing Event in Costa Mesa, California

*Muscle Testing Workshop Covers Testing Practice for Health Practitioners Nationwide*

MERIDIAN, ID, UNITED STATES, March 28, 2022 /EINPresswire.com/ -- On April 1st, 2022, CellCore Biosciences will host the second muscle testing workshop of the year. Health practitioners are invited to Costa Mesa, California with CellCore co-founders, Dr. Jay Davidson and Dr. Todd Watts, plus Dr. Darren Schmidt, as they offer two days of in-depth, hands-on learning for practitioners.

Muscle Testing workshops provide hands-on education for health practitioners

This is a hands-on weekend workshop with actionable takeaways that practitioners can immediately implement in the clinic on Monday.

“

These hands-on workshops are tailored to provide solutions for our practitioners to take home and utilize in their practices.”

*Dr. Jay Davidson, co-founder of CellCore*

Practitioners can expect to learn the secret to improving the accuracy of muscle testing, how to test to find the source of a client's symptoms, the best questions to ask during testing, and much more.

Along with muscle testing, this workshop also discusses the science of root causes. A variety of different topics will be covered, including bacteria, chemical toxins, Lyme disease, mitochondrial function, mold and mycotoxins, parasites, tissue regeneration, and more.

Dr. Jay shares, “We created muscle testing workshops to provide valuable education to our dedicated practitioners. These hands-on workshops are tailored to provide solutions for our practitioners to take home and utilize in their practices. The Atlanta muscle testing workshop

started 2022 off strong, and I am excited for the Costa Mesa workshop to bring that same energy.”

If you would like to register for the Costa Mesa muscle testing event, please visit the CellCore muscle testing website page (<https://workshops.cellcore.com/orange-county/home>). To take a look at the agenda for the two-day [event, go here](#).

CellCore has another muscle testing workshop scheduled for September in Boston, MA. They plan to offer more in various locations before the end of the year. CellCore will also host ECO, their educational conference for health practitioners, in August. To learn more and register for the next events, visit the CellCore events website (<https://cellcore.com/pages/events>).

To attend a workshop, you must be a registered CellCore practitioner. To learn more about becoming a CellCore [practitioner, go here](#).
