

BOSS Audio Systems Launches Polaris RZR 5-Speaker Plug & Play Audio Kit

OXNARD, CA, USA, March 29, 2022

/EINPresswire.com/ -- BOSS Audio Systems Launches Polaris RZR 5-Speaker Audio Kit

The Weatherproof, Affordable, and Plug & Play [BPRZR5](#) Has Been Designed for 2014-2019 Polaris RZR 900, 1000, and Turbo 2- and 4-Seat Models

OXNARD, Calif., March 29, 2022 - BOSS Audio Systems (www.bossaudio.com), a leader and innovator in 12 Volt aftermarket audio and video products, is proud to announce the launch of the new five-speaker, vehicle-specific Polaris RZR audio kit. Now available at an affordable (\$1549.99 MSRP), the BPRZR5 has been designed for 2014-2019 Polaris RZR XP 900, 1000, and Turbo 2 or 4-seat models. And, for a limited time, each BPRZR5 purchase will also include two free POLCAM plug-and-play front and rear cameras (\$156 value) that work in tandem with the kit's five-inch touchscreen and easily integrate into factory locations.

"The BPRZR5 is our first UTV-specific audio solution, and what really sets us apart from the competition is all five of the speaker and subwoofer pods are internally powered, meaning an easier plug-and-play install in less time without the need for tuning an amplifier," explained Greg Orlando, Boss Audio Sales Manager. "All of the speaker pods and the sub enclosure also come pre-loaded. The sub enclosure is ported for louder and clearer audio output, and comes with a port plug to seal the enclosure during extremely muddy and wet conditions."

The system also features a weatherproof, 5-inch (127 mm) full color touchscreen head unit with built-in amplifier, Bluetooth® compatibility, digital media MP3 player, USB Port, AM/FM receiver, and front/rear camera compatibility.

Additional BPRZR5 features and specifications include:

- (5) full range Weatherproof / Powersports rated speakers with poly carbon cone and rubber surround
- (1) Class D amplified 600 Watt 10-inch (254 mm) subwoofer in ported enclosure with port plug
- (2) Class D amplified 100 Watt 6.5-inch (165 mm) kick panel enclosure speakers
- (2) Class D amplified 100 Watt 6.5-inch (165 mm) cage pod speakers
- Factory fit and finish head unit mounting kit for use in 2 OE dash locations
- 2019+ RZR & 2014-2018 RZR receiver installation wire kits with true “Plug & Play” components and vehicle direct fit harness

“The BPRZR5 is easy to install and sounds great, it allows you to listen to all your favorite music from your smartphone and MP3 devices,” Orlando concluded. “Bluetooth audio streaming also allows you to play and control music and apps such as Spotify and Pandora wirelessly.”
