

CAVRNUS SHOWCASES THE DESTINATION METaverse PLATFORM—A WEB3-, BLOCKCHAIN- AND NFT-READY SOLUTION—AT NFT | LA

Cavnus enables any enterprise, brand or creator to design, build and share their vision of immersive reality with anyone, anywhere, on any device!

LOS ANGELES, CA, USA, March 29, 2022 /EINPresswire.com/ -- [Cavnus](#), Inc. demonstrates the power and ease of the Cavnus metaverse builder platform to deliver the next generation of fully-immersive human-centered digital experiences to Web3 and NFT builders, thinkers and enthusiasts at the inaugural NFT | LA conference in Los Angeles, CA, March 28-31.

Cavnus CEO and Co-founder, Anthony Duca will have a special part in NFT | LA as a speaker on the Architecture and Interoperability panel sharing his view on the importance of creators for widespread adoption of the metaverse. Anthony shares, "I've been involved in the 3D computer graphics field for over 20 years helping to build tools that simplify processes for creators. Creators are an essential part of how the metaverse will take shape and grow, ultimately envisioning what will become the experience internet in our journey to further human connection and understanding."

DESTINATION METAVERSE: YOU

The Cavnus Destination Metaverse: You experience allows NFT | LA attendees the opportunity to interact in real-time with their favorite 2D or 3D NFT artwork! Attendees see the Cavnus platform in action. Visitors to the booth receive a personalized .GIF of the moment to share with friends and have their NFT artwork become part of a living virtual museum. Visitors to the booth also receive their own Destination Metaverse: You space free for 30-days, pre-populated with their NFT artwork and unlocked so they can completely make it their own.

PLATFORM DEMONSTRATIONS

The versatility, ease and power of the Cavnus platform is on full display at NFT | LA. The Cavnus Unreal Engine plug-in instantly transforms Unreal Engine projects into multi-person, voice and video-driven, persistent experiences. Coupled with the Cavnus SDK and journal, the Cavnus UE plug-in integrates into existing 3D workflows to provide vivid, true-to-life immersive experiences that bring brands, art, culture, gaming and sports together in completely new ways.

Demonstration projects highlight a virtual fashion show, an immersive luxury automobiles

purchasing journey, and an interactive cultural experience that drives community building.

The Cavnus SDK and Cavnus Unity Plug-in demonstrate the power of the platform real-time as the services power The Cavnus Destination Metaverse: You experience on the show floor. Creators see for themselves the power of the Cavnus tools to bring their immersive visions to life along with the simplicity of delivering those experiences to customers, collectors and fans.

VIRTUAL LIVING MUSEUM

Cavnus open Destination Metaverses seamlessly bring people together and foster community. This platform superpower comes to life at NFT | LA with a virtual living museum comprising all the 2D and 3D NFT artwork shared to us by real creators and collectors as part of the Destination Metaverse: You experience. Public guest links allow online visitors to join the virtual living museum to exchange ideas, collaborate and inspire conversations around digital asset sharing or creation well beyond NFT | LA.

ABOUT CAVRNUMS, INC.

Cavnus, the ultimate metaverse builder platform, enables enterprises, brands, and creators to design and share the most human and life-like immersive reality experiences. A transformative feature-set, backend journaling system, interactive scripting and SDK/API integrations make creating and publishing experiences easy and intuitive. Cavnus is built to ingest over 40+ 2D and 3D file types and supports both Unity and Unreal Engine development pipelines. Cavnus makes it easy for people to connect through shared multi-person experiences on any device or platform and combines the physical and digital into a unified lived reality.
