In addition, the industries served by the market consist of BFSI, government, oil and gas, manufacturing, and retail, among others. The market is analyzed on the basis of four regions, namely North America, Europe, Asia-Pacific and LAMEA.

Key market leaders are also covered in the indoor location market research report. List of companies discussed in the report includes Cisco, Motorola, Microsoft, Broadcom, Apple, Qualcomm and others.

There are several drivers, restraints and opportunities that has influenced the indoor location market to a greater extent. Factors such as the need for reliable GPS technology in indoor locations & the necessary improvement in public safety, are driving the indoor location industry.

On the other hand, demand for cost control measures associated with the deployment model is now determining the market future, which looks promising. However, slow adoption of this technology has hindered the development of the market in many regions. In addition, the indoor location market is still at its nascent stage in many countries.
