

# Antimony Market Growth, Scope & Competitive Analysis, Trend, Regulatory Landscape & Forecasts 2028

*Antimony Market Trend – Rapid industrialization in developing countries*

VANCOUVER, BC, CANADA, March 29, 2022 /EINPresswire.com/ -- The new report titled 'Global [Antimony Market](#)', published by Emergen Research, is methodically curated by our team of analysts, keeping readers' understanding in mind, and includes a wide-ranging database of industry distribution. The report takes a closer look at the historical and current market scenarios to accurately predict the global Antimony market outlook over the forecast duration. Researchers have taken a holistic approach towards the global market analysis and highlighted the factors that influence the overall growth of the market. The study involves the use of efficient analytical tools like SWOT analysis and Porter's Five Forces to inspect the strengths, weaknesses, opportunities, and threats associated with the growth of the various market segments. The report provides crucial details, such as the market shares of the key players, which help the reader attain a comprehensive outlook of the Antimony market.

The antimony market size is projected to reach USD 3.10 Billion in 2028 and register a moderate CAGR over the forecast period, according to latest analysis by Emergen Research. Some key factors driving revenue growth are increasing use of antimony in plastic additives, in rubbers, and chemicals and others.

Flame retardants are chemicals that help in reducing the level of ignition and prevent the start and spread of fire. Flame retardants are widely used in furniture, electronic products, building materials, and others to provide a limited fire safety benefit. Flame retardants can enable modern electronic equipment such as televisions and computers to meet fire safety standards.

However, flame retardants do not break down easily, and hence remain in the environment for an extended period of time.

#### Regional Analysis:

This section of the report offers valuable insights into the geographical segmentation of the Antimony market, alongside estimating the current and future market valuations based on the demand-supply dynamics and pricing structure of the leading regional segments. Furthermore, the growth prospects of each segment and sub-segment have been meticulously described in the report.

#### Segmental Analysis

The global Antimony market is broadly segmented on the basis of different product types, application range, end-use industries, key regions, and an intensely competitive landscape. This section of the report is solely targeted at readers looking to select the most appropriate and lucrative segments of the Antimony sector in a strategic manner. The segmental analysis also helps companies interested in this sector make optimal business decisions and achieve their desired goals.

Key players operating in the global antimony market Mandalay Resources Ltd., Belmont Metals Inc., AMG Advanced Metallurgical Group, United States Antimony Corporation, Lamber Metals International, Village Main Reef Ltd., Amspec Chemical Corporation, Recylex, Tri-Star Resources, and NYACOL Nano Technologies.

#### Some key findings in the report

In November 2019, AMG Advanced Metallurgical Group acquired the assets of International Specialty Alloys, which is a leading U.S producer of titanium master alloys and other binary alloys for the aerospace market. This acquisition will help in business expansion of AMG Advanced Metallurgical Group.

Based on application, the market is segmented into lead-acid batteries, flame retardants, plastic additives, glass & ceramics, and others. Flame retardants are chemicals that are used in materials to prevent the start or to slow down the progress of a fire.

Europe accounted for a significantly large share in the global antimony market revenue in 2020. Stringent government regulations and fire-resistance attributes of antimony, and rising demand for safer products and materials for use in a range of products and industries is expected to continue to drive market growth.

For the purpose of this report, Emergen Research has segmented the global antimony market based on application, product type, end-use, and region:

Application Outlook (Revenue: USD Billion; Volume: Kilo Tons; 2018–2028)

Lead Acid Batteries

Flame Retardants

Plastic Additives

Glass & Ceramics

Others

Product Type Outlook (Revenue: USD Billion; Volume: Kilo Tons; 2018–2028)

Antimony Trioxide

Alloys

Metal Ingot

Antimony Pentoxide

Others

End-use Outlook (Revenue: USD Billion; Volume: Kilo Tons; 2018–2028)

Automotive

Chemical

Electrical

Others

Regional Outlook (Revenue: USD Billion; Volume: Kilo Tons; 2018–2028)

North America

U.S.

Canada

Mexico

Europe

Russia

U.K

Germany

France

Italy

Spain

BENELUX

Asia Pacific

China

India

Japan

South Korea

Rest of APAC

Latin America

Brazil

Rest of LATAM  
Middle East & Africa  
Saudi Arabia  
UAE  
South Africa  
Israel  
Rest of MEA

Global Antimony Market Report – Table of Contents:

Chapter 1 includes the global Antimony market introduction, followed by the market scope, product offerings, growth opportunities, market risks, driving forces, and others.

Chapter 2 broadly categorizes the Antimony market on the basis of geography, and determines the sales, revenue, and market shares of each region over the estimated period.

Chapter 3 elaborates on the competitive outlook of the Antimony market, focusing on the major manufacturers and vendor landscape.

Chapter 4 exhaustively studies the key manufacturers of the Antimony industry, along with their anticipated sales and revenue shares.

Chapter 5 includes market segmentation based on product type, application range, and market players.

About Emergen Research

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy.
