“

We want the next generation to know more about Napoleon Hill's work. These principles have changed my life and I'm ready to watch them change millions more.”

“We want the next generation to know more about Napoleon Hill's work,” added executive producer David Ibarra. “These principles have changed my life and I'm ready to [watch](#) them change millions more.”

The film cast includes Don Boyer, David Ibarra, Dr. John Sachtouras, Tracy Jones (the daughter of the great Charlie "Tremendous" Jones), Bob Proctor, Sharon Lechter, Dr. Joe Vitale, John Assaraf, and Britnie Turner. "The Power of Thought" is edited by Joel Yeast and Isoke Agurre.

Limited VIP tickets to the movie premiere include a mastermind session with cast members - reflecting the same mastermind that Napoleon Hill wrote in the book "Think and Grow Rich."

This VIP mastermind brings together some of today's most outstanding thought leaders to discuss some of the most significant innovations and trends for the future.

Napoleon Hill's work has touched the lives of millions of people through his lectures, teachings, and prolific writings. His internationally known books "Think and Grow Rich" and "The Law of Success" have become the standards of motivational literature against which all others are measured.

"We're so honored to give back to the Napoleon Hill Foundation," said Melinda Boyer. "We want to continue the good works they've created and will donate a portion of the proceeds back to the foundation."

Boyer was selected due to her recent success with "Beyond the Secret - The Awakening" - winner of 11 awards and nominated for the Gold Awards. The film was also a semi-finalist in the Cyrus International Festival of Toronto. "Beyond The Secret - The Awakening" is available to watch on Amazon Prime Video as part of the direct self-publishing service.
