

Digital Video Recorder Market Growth Factor & Industry Revenue Analysis Along with Key Players

Digital video recorder refers to the technology used for recording audio & video in a digital format with storage device such as USB flash drive, SD memory card

PORTLAND, PORTLAND, OR, UNITED STATE, March 30, 2022

/EINPresswire.com/ -- The global [digital video recorder market](#) is expected to register substantial growth in the near future, attributed to increased digitization of television broadcasting, the rise in adoption of cloud based DVRs, and growth in demand for HD videos. Other factors that drive the digital video recorder market are increase in number of broadcast channels and rise in penetration of smartphones and smart devices. However, factors such as high initial cost, compatibility of videos, and requirement of large storage space are expected to restrict the growth of the market.
