

# Rail Logistics Market: The New Frontier In Electric Vehicles: Trains With Batteries

*Rail Logistics Market by Mode of Transport (Tank Wagon, Intermodal, and Freight Car) - Global Opportunity Analysis and Industry Forecast, 2022-2030.*

PORTLAND, OREGON, UNITED STATES, March 30, 2022 /EINPresswire.com/ -- The global [rail logistics market](#) is segmented based on mode of transport, which includes tank wagon, freight car, and intermodal. The intermodals segment is anticipated to observe robust growth in near future. Geographically, it is categorized across North America, Europe, Asia-Pacific, and LAMEA. North America dominated the market in 2016 due to availability of the well-developed infrastructure and advanced systems in the region.

Rail cargo transport plays a vital role in generating a sustainable and competitive transport market. A higher traffic congestion in highways is an essential factor responsible for the growth of rail logistics market. In addition, increase in investment, rapid evolution of regulatory policies, and mega infrastructural projects in the past few years have strengthened the rail logistics market. Moreover, shipping goods through various rail network decreases the number of heavy vehicles, such as trucks on road, which in turn reduces the congestion and diminishes the carbon emissions.
