

Global Histopathology Services Market 2022 Future Set to Huge Growth with High CAGR value

The global histopathology services market is anticipated to grow at a CAGR of 5.8% over the forecast period

PUNE, MAHARASHTRA, INDIA, March 30, 2022 /EINPresswire.com/ -- Histopathology services include tissue processing, staining, immunohistochemistry, pathology evaluation, slide preparation and evaluation and others. Companies provide a comprehensive spectrum of services, from necropsy to complex histology processing, as well as professional pathologist evaluation.

Research centers, hospitals and clinics, pharmaceutical companies are leveraging histopathology services to have reliable testing services as well as have standardization in testing the tissue samples. Moreover along with the advanced technologies companies are looking forward to provide services from wet tissue clipping to fixation, processing, embedding, sectioning, image analysis, and reporting, including frozen sample assessment, from any stage in the histopathology process. Furthermore, in medical and pharmaceutical research, histopathology is very important. However, performing histopathology in-house might be costly, time-consuming, or even a non-core activity in some situations which has led to outsourcing of the services to have accurate results. There is a rise in demand for histopathology services in pharmaceutical companies for research and preclinical therapeutics. Major pharmaceutical companies are collaborating with histopathology services companies to expand their value to the clients for histological services.

Pharmaceutical companies are leveraging the services such as tissue analyses, efficacy determination of new compounds, toxicology evaluation and pathology reporting for good laboratory practices. For instance, OracleBio, offers digital pathology services which provides image analysis services to Pharma and Biotech clients worldwide. The company supports clinical trials and translational research by delivering strong data packages within a quality management

framework using several software platforms. To support pre-clinical and clinical research, the company offers high-precision, quantitative digital pathology services. Additionally in 2018, Merck, a science and technology based company, agreed to be the sole multinational distributor of HistoCyte Laboratories Ltd, portfolio of cell line reference products for immunohistochemistry and in situ hybridization. Thus through these mergers and acquisitions, pharmaceutical companies and research centres can have an easy access to the services globally, which in turn is driving the demand for [histopathology services market](#).

The research report on Global Histopathology Services Market will include extensive information based on the following pointers:

- Global Market size and forecast values (2015 – 2030), in terms of revenue (US\$ Million) by segments/sub-segments; wherein 2015 to 2019 has been considered as historic years, 2020 as the base year, while 2022 to 2030 has been considered as the forecast period.
- Split of the market revenue (US\$ Million) into all the relevant segments & sub-segments across all major regions/countries.
- Market Determinants and Influencing Factors
- Macro-Economic and Micro-Economic Indicators
- Market Dynamics
 - o Drivers
 - o Restraints
 - o Opportunities
 - o Challenges
- Trends on Global Histopathology Services Market
- Exclusive Details on the Effect of the Pandemic
- Porter's Five Forces Analysis
- Competitor Landscape
 - o Product Benchmarking
 - o Market Share Analysis, 2020
 - o Global Presence and Growth Strategies
- The final report will include competitive product benchmarking which will include comparison of different products offered by different market participants on the basis of their features and capabilities that will help you to understand their market offerings. Furthermore, for each company, we will provide information regarding company details, company overview, product offerings, key developments, financial analysis, and SWOT analysis and business strategies.
- We offer our report in different languages which include German, French, Spanish, Japanese and Korean amongst others.

The key market participants operating in the global histopathology services market are:

- AnaPath Services GmbH
- BioIVT LLC.
- CellCarta
- Cellular Pathology Services Limited
- Comparative Biosciences, Inc.
- Core Diagnostics
- HistologiX Limited
- Histopathology Services Inc.
- Liveon Biolabs Pvt.Ltd.
- MLM Medical Labs GmbH
- Molecular Diagnostic Services, Inc.
- Pathology Services Core
- Q2 Solutions.
- Saffron Scientific Histology Services
- Suburban Diagnostics
- The Doctors Laboratory
- TOXIKON
- Other Market Participants
