Ammonia = Clean, Scalable Power

“Ammpower Initially Aims to Produce Economical, Carbon-Free & Scalable Ammonia”

The Ammpower team is focused on a process that can break water into its constituent hydrogen and oxygen atoms, and then adds nitrogen from the atmosphere to create ammonia. We are committed to utilizing carbon-free energy sources to ensure an end-to-end clean, green ammonia production system that is efficient, mobile, and modularly scalable. This means Ammonia production and Hydrogen cracking could be located closer to the end user in an integrated process to designed grow with the

customer’s needs.

CEO Gary Benninger – Commented

“Joining the Investors Coliseum is an important step forward in telling the AmmPower Corp.

story. As one of the earliest leaders in the green energy space, we are excited to let investors know about how critical green ammonia is to a green planet. With initiatives in green fertilizers, green fuel, and enabling the movement of green hydrogen, AmmPower touches nearly all facets of the renewable industry. We are excited to be part of the Investors Coliseum.”

Mr. Spyros P. Karellas, CEO and CO-Founder stated:
