Simply put, there is no other home renovation business quite like Granite and TREND Transformations. This is remodeling the way people have always dreamed it would be.

There are lots of home renovation franchise opportunities, but it's tough to think of one with more potential than Granite and TREND Transformations.

The company's industry-leading top-over-top solution provides top-flight kitchen and bath renovations as quickly and easily as customers want them. The exclusive [etherium® By E-Stone](#) engineered stone surface for countertops is the only engineered stone in the world that comes

with built-in [Microban®](#) 24/7 antimicrobial technology. The product is also custom handcrafted with ForeverSeal®, the company's proprietary polymer resin which ensures that etherium® By E-Stone countertops are not only beautiful, but also heat, stain, scratch, mold and mildew-resistant. They can be installed in as little as one day and their beauty will last a lifetime.

And now, through a partnership with a national big box home improvement and hardware chain, Granite and TREND Transformations franchisees are primed for increasing their growth exponentially in their respective markets.

“Our franchise opportunity is like no other with built-in lead generation that ensures a path to a successful start for a new franchisee” states Bob McHugh, SVP Development and Sales.

Recent industry statistics* are validating that a home remodeling franchise opportunity like Granite and TREND Transformations is the new “It” franchise to invest in:

About 80% of houses in the United States are at least 20 years old, therefore they require home improvements and remodeling. In 2018, kitchen remodeling costs came to an average of \$14,000. In 2018, sales from United States hardware stores amounted to \$49.7 billion.

Do-It-Yourself lumberyards across the United States amassed revenues of \$103.6 billion in 2019.
