

# Cloud Database Security Market Overview, Emergen Trend, Growth, Insights, Industry Analysis, and Forecasts Report 2028

*Rapid adoption of cloud-based services in the healthcare sector and growing need for maintaining regulatory complianc*

VANCOUVER, BC, CANADA, March 31, 2022 /EINPresswire.com/ -- Cloud Database Security Market TAM (Total Addressable Market) will be USD 27 Billion in 2028

The Global Cloud Database Security Market Research Report published by Emergen Research is furnished with the latest information about product specifications and portfolio, technological advancement, product type, and manufacturing.

The [global cloud database security market size](#) is expected to reach USD 27 Billion in 2028 and register a revenue CAGR of 19.0% over the forecast period, according to latest analysis by Emergen. Rapid adoption of cloud-based services in healthcare sector and the need to maintain regulatory compliance are some key factors driving cloud database security market revenue growth.

Cloud database security is a method of protecting data in cloud computing by protecting databases from unauthorized access, theft, and misuse of confidential data. Server-less or hosted applications that encrypt sensitive data before they are transferred to a public cloud service provider using client-side encryption techniques are included in cloud database security. This ensures that even if an attacker gains access to the servers storing these backups, they are useless without the keys.

Cloud database security ensures that information saved in the cloud is safe and secure. There is increasing concern regarding cloud database security, due to different applications associated with Information Technology (IT) and increase in the number of platforms for data accessibility. Data integrity, availability, and accessibility to authenticated users are ensured by cloud database

security.

Subject matter experts conducting the study also take a closer look at the products at their development stage and in the pipeline to help business owners conclude on the business strategies that can lower their cost and promise great returns or profits. Strong emphasis on new launches, acquisition and mergers, collaboration, import and export status and supply chain management empowers the business evangelists, manufacturers and business owners build a robust strategy when it comes to making an investment.

Cloud Database Security Market Research Sample Report @

The study churns out some real-time data and offers enough information on the estimated market size, growth, and share to the stakeholders, field marketing personnel and product owners planning to multiply profitability and reduce costs. Importantly, the market intelligence research dives deep into customer preferences, spending capacity and production volume with the aim to ensure unmatched customer delight. A thorough assessment of trends from the yesteryears and future discussed in the report can help business owners identify tweaks that might be needed to the existing business strategy.

The report covers the following companies- IBM Corporation, Fortinet Technologies Inc., Intel Security Group, Oracle Pvt. Ltd., NetLib Security Inc., The Hewlett-Packard Company, Trustwave Holdings, Inc., Voltage Security Inc., Axis Technology LLC, and Informatica LLC.

The report offers precise information about pricing, capacity, value, gross revenue, and profit of the market. The primary aim of the report is to offer in depth details about market size, revenue growth and overall market dynamics to readers, stakeholders, companies to strengthen their share in the global Cloud Database Security market. It also provides in depth information about key factors, restraints, limitations, challenges along with various market segmentations such as product type, application and regional bifurcation.

Emergen Research has segmented the global cloud database security market on the basis of type, application, industry vertical, and region:

Type Outlook (Revenue, USD Billion, 2018–2028)

Public Cloud

Private Cloud

Hybrid Cloud

Application Outlook (Revenue, USD Billion, 2018–2028)

Cloud Activity Monitoring

Access Management

User Authentication

Others

Industry Vertical Outlook (Revenue, USD Billion, 2018–2028)

BFSI

Government

Retail

Healthcare

IT & Telecom

Manufacturing

Others

The study segments the Cloud Database Security industry in light of major classification such as product type, potential markets, application, and end-user. This industry assessment for the forecast period, 2021 – 2028 incorporates projections pertaining to the investment feasibility, gross margin, profits, consumption volume, production capability and major market vendors. Likewise, statistics associated with the competitive landscape, shifting consumer behaviour and spending power is showcased and well-explained with the help of treasured resources such as charts, graphs and graphic images, which can be easily incorporated in the business or corporate presentations.

Key point summary of the report:

The report offers a comprehensive overview of the market size, share, and growth rate in the forecast duration.

It provides details about current scenario, historical data, giving an accurate market forecast for

the coming years.

The study categorizes the market on the basis of product types, applications, end users, market value and volume, business verticals, and 5 major regions.

It also offers regional market analysis and forecast for prominent geographies in the sector viz., North America, Europe, Asia Pacific, Latin America, and the Middle East and Africa.

Industry supply chain, sourcing strategy, upstream feedstock, and downstream demand analysis has also been undertaken in the research report.

The study offers a comprehensive understanding of the demand and supply dynamics, including production and consumption rates, and mapping of the overall market.

The report employs different analytical tools including, SWOT analysis, Porter's five forces analysis, and pricing analysis, to give precise market information.

Regional Outlook of Cloud Database Security Market:

North America

S.

Canada

Mexico

Europe

Germany

K.

Italy

France

BENELUX

Rest of Europe

Asia Pacific

China

India

Japan

South Korea

Rest of APAC

Latin America

Brazil

Rest of LATAM

Middle East & Africa

Saudi Arabia

A.E.

South Africa

Rest of MEA
