

# Cloud Object Storage Market Trends and Opportunities, Regional Insights, Technology, Sales Projection & Dynamics by 2028

*Increasing demand for fast transfer of data, data recovery, and data availability with no downtime, and data security threat*

VANCOUVER, BC, CANADA, April 1, 2022 /EINPresswire.com/ -- The [Cloud Object Storage Market](#) explores how the Cloud Object Storage market will continue to expand for the forecast period 2021 - 2028. Cloud Object Storage Market size is expected to reach USD 13.65 Billion in 2028 and register a CAGR of 13.6% during the

forecast period, according to the latest analysis by Emergen Research. Factors such as increasing demand for fast transfer of data, data recovery, and data availability with no downtime, and data security threats are driving market revenue growth.

Rapid rise in adoption technologies such as deep learning, Internet of Things, data analytics, cloud computing are driving demand for cloud object storage solutions across various verticals worldwide. Social media platforms are expected to register a high growth rate over the forecast period. The media industry faces challenges related to storing, managing, accessing, and facilitating collaboration for vast volumes of data.

To help gain the business owner further gain business intelligence the study on the Cloud Object Storage market for the forecast period, brings to light data on production capability, consumption capacity, spending power, investment feasibility, and technology innovation. A thorough assessment of market performance across different regions is presented through self-explanatory graphic images, charts, and tables that add weight to corporate presentations and marketing materials. The study offers regional profiles of major vendors and extensive country-level break down to empower companies to make a wise investment decision when exploring new regions.

The market intelligence study for the Cloud Object Storage market further provides an inside-out overview of necessary aspects associated with the product classification, important definitions, major orders and other industry-centric parameters. An underlying part of the study also maps the important factors associated with the recent events such as mergers and acquisition, collaboration and new product launches. In addition, the research lays down a robust groundwork for obtaining a vast amount of information that potential customers can use to increase their profits and reduce costs. The inclusion of data on market segmentation by type, application, and geography offers clarity presents an analytical picture of, what manufacturers are aiming for.

Companies profiled in the global Cloud Object Storage market:

Oracle Corporation, Cisco Systems, Inc., Hewlett Packard Enterprise, International Business Machines Corporation, Microsoft Corporation, Hitachi Data System, Google LLC, Amazon Web Services, Inc., Datadirect Networks, and Dell EMC.

The report also covers the scope of individual applications and types in each region. The report also covers details about production and consumption patterns, technological developments, revenue growth, market size, market share, key trends and demands influencing market growth in the region, and robust presence of key players in the region.

Cloud Object Storage Market segmentation

Emergen Research has segmented the cloud object storage market based on deployment, enterprise-size, end-use, and region:

Deployment Outlook (Revenue, USD Billion; 2018-2028)

Public Cloud

Private Cloud

Hybrid Cloud

Enterprise Size Outlook (Revenue ,USD Billion; 2018-2028)

SMEs

Large Enterprises

End-Use Outlook (Revenue, USD Billion; 2018-2028)

Social Media Platforms

IT & Telecommunication

BFSI

Others

The study dives deep into the profiles of top market players and their key financials. This comprehensive report is not only for business analysts and any existing and new entrant can use it when designing their business strategies. The research is one of its kind global analyses of aspects such as import and export status, supply chain management, profit and gross margin worldwide for the forecast period. Extensive coverage of statistics associated with recent events including acquisition and mergers and strengths and weaknesses of a company forms an important part of the study on the Cloud Object Storage market.

Regional segmentation comprises of a current and forecast estimation of the market in the key geographical regions such as North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

Regional Outlook of Cloud Object Storage Market:

North America

S.

Canada

Mexico

Europe

Germany

K.

Italy

France

BENELUX

Rest of Europe

Asia Pacific

China

India

Japan

South Korea

Rest of APAC

Latin America

Brazil

Rest of LATAM

Middle East & Africa

Saudi Arabia

A.E.

South Africa

Rest of MEA

Key Features of the Cloud Object Storage Market Report:

The report offers details about key drivers, restraints, opportunities, challenges, growth prospects, limitations, and threats

The report encompasses details about the key companies, product portfolio along with specifications, production valuation, and market shares

Evaluation of key current and emerging market trends and growth prospects

It also offers research-backed estimations for the forecast period of eight years, primarily to estimate the potential market growth

Brief overview of industry with regards to research and development, technological advancements, and product development

In-depth assessment of upstream raw materials, downstream buyers, demands, and current market scenario

Thank you for reading the research report. To get more information about the customized report and customization plan, kindly connect to us and we will provide you with the well-suited customized report.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides

our clients with the ability to secure an edge over their respective competitors.
