

# Texas Mesothelioma Victims Center Urges a Former Chemical Plant-Refinery Worker with Mesothelioma in Texas to Call Attorney Erik Karst of Karst von Oiste-Compensation Might be Millions of Dollars

HOUSTON, TEXAS, USA, May 17, 2022

/EINPresswire.com/ -- The Texas Mesothelioma Victims Center says, "If you are a former chemical plant or oil refinery worker with recently diagnosed mesothelioma anywhere in Texas or their immediate family, please take financial compensation very seriously and call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 for a specific plan to get the best results. Financial compensation for a person like might be in the millions of dollars depending on the specifics of how they were exposed to asbestos.

"To receive the best possible mesothelioma compensation, it is incredibly important the person with this rare cancer be able to get specific of how they were exposed to asbestos. In the instance of a former chemical plant or refinery worker with mesothelioma their asbestos exposure probably involved being part of a repair crew maintaining the facility, as a skilled trades worker performing updates or as a manager supervising the work being done. People like this may have had extreme exposure to asbestos prior to 1982 at a chemical plant or oil refinery.

"If the person we have just described sounds like your husband or dad, and he has just been diagnosed with mesothelioma please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 for a no obligation compensation analysis. We think you will be glad you did."

High-risk work groups for exposure to asbestos in Texas include Veterans of the US Navy, power plant workers, oil refinery workers, oil rig workers, chemical plant workers, factory workers, plumbers, electricians, auto mechanics, machinists, and construction workers. Typically, the exposure to asbestos occurred in the 1950s, 1960s, 1970s, or 1980s. [www.karstvonoiste.com/](http://www.karstvonoiste.com/)

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, because Texas is one of the nation's largest energy producing states mesothelioma does happen to good people in Texas.
