

The Advocate Appeals to The Family of a Navy Veteran with Lung Cancer in Iowa-Who Before 1982 Had Navy Asbestos Exposure to Call Attorney Erik Karst of Karst von Oiste- Compensation May Exceed \$100,000

DES MOINES , IOWA, USA, May 20, 2022

/EINPresswire.com/ -- According to the Iowa US Navy Veterans Lung Cancer Advocate, "If you are a Navy Veteran who has been diagnosed with lung cancer in the last 12 months and before 1982 you had routine exposure to asbestos on a navy ship, submarine or at a shipyard please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss financial compensation. Financial compensation for a person like this might exceed \$100,000. Compensation for a person like this will be based on the specifics of how they were exposed to asbestos in the navy.

"Most Navy Veterans who served on a navy ship, submarine or at a shipyard can recall some of the specifics of how they were exposed to asbestos-especially if they were part of a ship's engine room crew, a member of a repair crew on a ship or submarine or if they assisted shipyard workers with repairs to their ship or submarine. When it comes to compensation for a person like this the more specific-they can get about their asbestos exposure in the navy the better as attorney Erik Karst of Karst von Oiste is always more than happy to discuss at 800-714-0303."

Important Note from the US Navy Veterans Lung Cancer Advocate: "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact. Frequently compensation for people like this might exceed \$100,000." <https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.

“

If you are a Navy Veteran who now has lung cancer and before 1982 you had routine navy asbestos exposure please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303.”

Iowa US Navy Veterans Lung Cancer Advocate

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Iowa. www.karstvonoste.com/

For more information about asbestos exposure please visit the NIH's website on this topic:
