Increasing competence across business sectors to influence the overall market growth
The dynamic nature of businesses has led to high competition in business sectors with technological advancements and breakthrough innovations. There is no surety of a large business firm continue to remain as the market leader for a long period of time unless it adapts to the ever-changing dynamics. Smaller firms emerging with disruptive innovations have gained the reputation as market disruptors as they pose challenges to the business of larger firms. In simpler words, the business arena today is characterized by cut-throat competition. Each and every business today strive hard to survive and gain a competitive advantage in the market outpacing its competitor. Further, the changing economics, trade relations, Government in a particular region drive the changes in the way businesses are to be done. Having a pre-handled idea on the changing market dynamics hands advantage to the organizations, and this can be done by leveraging upon the expertise of the personnel.
