

Digital Radiography Market 2025 : Know The Key Growth Drivers Developments and Innovations

Digital radiography market is expected to witness a rapid growth, owing to rise in incidence of sports-related injuries and cancer.

PORTLAND, OREGON, UNITED STATE, April 4, 2022 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "[Digital Radiography Market](#) by Application (General Radiology, Dental Application, Fluoroscopy, Mammography, and Others), Technology (Computed Radiography and Direct Radiography), Portability (Retrofit Digital X-ray System, New Digital, and X-ray System), and End User (Diagnostic Centre and Hospital): Opportunity Analysis and Industry Forecast, 2022-2029". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

The global digital radiography detectors market is expected to witness a rapid growth, owing to rise in incidence of sports-related injuries and cancer. At present, many patients, especially in developing nations are undergoing image testing every year. Apart from that, the number of geriatric population is increasing, which is expected to drive the demand for digital radiography detectors in the years to come. This is attributed to the fact that elderly people are highly prone to suffer from age-related diseases, thus adding to the need for conducting various radiographic tests. In addition, leading players are focusing more on introducing new technologies especially for C-arms and fluoroscopy devices among end users, thus contributing toward the growth of the overall market.

This market research study determines the increase in changes and the aspects which are likely to have an impact on the growth of the Digital Radiography Market. Increased demand for the technologies is also one of the factors, which are likely to boost the growth of this industry. The market research study uses several tools and techniques which are used for the determination of the growth of the market.

The key market players active in the market are, Canon Inc, Carestream Health, Fujifilm Corporation, GE Healthcare, Hitachi Ltd, Hologic, Inc., Philips Healthcare, Shimadzu Corporation,

Siemens Healthineers, Konica Minolta, Inc., Samsung Medison Co., Ltd, and Agfa Gevaert.

Digital Radiography MARKET SEGMENTS:

By Application

- General Radiography
- Chest Imaging
- Orthopedic Imaging
- Cardiovascular Imaging
- Dental Application
- Fluoroscopy
- Mammography
- Others

By Technology

- Computed Radiology
- Direct Radiology

By Portability

- Retrofit Digital X-ray System
- New Digital X-ray System

By End User

- Diagnostic Centre
- Hospital

The report is also used in the analysis of the growth rates and the threats of new entrants, which are used for the determination of the growth of the market for the estimated forecast period. Moreover, increased demand for the factors influencing the growth of the market is also one of the major aspects which is likely covered in depth in the report.

One of the methods for the determination of the growth of the market is the increased use of the statistical tools, which is used for the estimation of the growth of the market for the estimated forecast period. SWOT analysis is one of the methods for the determination of the growth of the market. These tools are also used for the determination of the major players for the growth of the market for the estimated forecast period.

Market segments are also an important aspect of any market research study. Reports are product based, they also includes information on sales channel, distributors, traders and dealers. This helps in efficient planning and execution of supply chain management as it

drastically affects the overall operations of any business. The up-to-date, complete product knowledge, end users, industry growth will drive the profitability and revenue. Digital Radiography Market report studies the current state of the market to analyse the future opportunities and risks.

The Digital Radiography Market is analysed based on regions and competitive landscape in each region is mentioned. Regions discussed in the study include North America (United States, Canada and Mexico), Europe (Germany, France, UK, Russia and Italy), Asia-Pacific (China, Japan, Korea, India and Southeast Asia), South America (Brazil, Argentina, Colombia), Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa). These insights help to devise strategies and create new opportunities to achieve exceptional results.□

Our Report Offers:

- Evaluation of market share for regional and country-level segments.
- Market share analysis of top industry players.
- Strategic recommendations for new entrants.
- All mentioned segments, and regional market forecasts for the next 10 years.
- Market Trends (Drivers, Difficulties, Opportunities, Threats, Challenges, Investment Opportunities and Recommendations)
- Strategic recommendations in the main business segment of the market forecast.
- Competitive landscaping of major general trends.
- Company profiling with detailed strategy, financial and recent developments.
- Latest technological progress mapping supply chain trends.
