*The Business Research Company's  
Commercial Drones Global Market Report  
2022 – Market Size, Trends, And Global  
Forecast 2022-2026*

LONDON, GREATER LONDON, UK, April  
6, 2022 /EINPresswire.com/ --

Commercial drones are being considered by companies that have last-mile delivery as the main business process which is driving the [commercial drones market growth](#). The drones will help reduce cost per

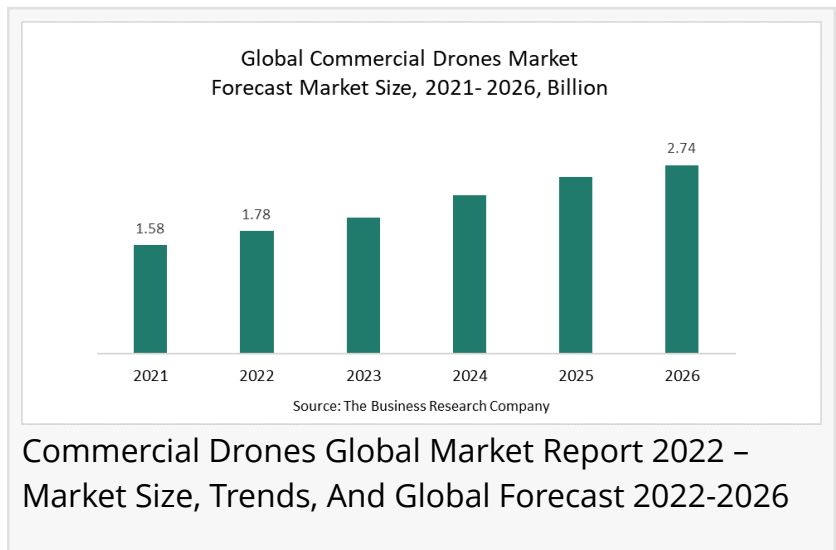

delivery and delivery time, thus increasing profits. Therefore, increasing the growth of the commercial drone market. According to a McKinsey report, if companies save 40% of their delivery costs using drones, then they will enjoy a 15-20% increase in their profit margin and a 15-20% decrease in their product or service prices.

The global [commercial drones market size](#) is expected grow from \$ 1.58 billion in 2021 to \$ 1.78 billion in 2022 at a compound annual growth rate (CAGR) of 12.5%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The commercial drone market is expected to reach \$2.74 billion in 2026 at a CAGR of 11.4%.
