

# Paint Roller Market Expected to Reach \$3.1 Billion by 2027 | Anderson , Beorol, Gordon , Marshall Brushes & Rollers

*increase in spending on home remodeling, and recovery in the construction sector*

PORTLAND, OR, UNITES STATES, April 5, 2022 /EINPresswire.com/ -- The commonly observed types of paint roller are synthetic and blended. Among these, the blended segment accounts for the largest size by value, owing to increased demand from various industries such as construction and furniture. The market is analyzed with respect to different industrial

verticals provided, such as industrial, commercial, and residential. The market is mainly driven by global economic growth, and development in residential, commercial, & industrial construction sectors. However, fluctuation in raw material prices limit the [paint roller market](#) growth. paint roller market size was valued at \$2.3 billion in 2019, and is projected to reach \$3.1 billion by 2027, registering a CAGR of 5.5% from 2020 to 2027.

For instance, in February 2019, the government of UAE has given a tender of \$2.7 billion for infrastructure projects under its public-private partnership (PPP) model. The infrastructure projects include residential and commercial structures. Similarly, in October 2019, the government of South Korea and Inter-American Development Bank (IDB) collaborated to invest around US\$1.3 billion in Latin American smart city projects.

However, during a lockdown, owing to the coronavirus situation, various manufacturers in the global paint roller market to stop their business production due to lockdown implemented in countries such as China, the U.S., India, and others. This break directly impacted the sales of

paint roller companies. In addition, lack of manpower and raw materials halts the supply of paint rollers. However, the reopening of production facilities and the introduction of vaccines for coronavirus disease are anticipated to lead to re-opening of paint roller companies.
