If data is the oil of the information age and AI is the engine, then data science is the digital domain's equivalent of the laws of Physics that cause combustion to occur and pistons to move. We will continue to see an accelerated rate of digitization and virtualization of business and society. COVID-19 has been a major driver of change. However, the need for sustainability, increasing data volume, and increasing computer network speed have regained the status of the most important drivers, for digital transformation. Here's a glimpse of top data mining companies:

1. QBurst
2. Crest Infosystems Pvt. Ltd.
3. Aegis Softtech
4. Excellis IT
