

Mobile Robot Market Size, Future Trends, Segmentation, Total Margin, Opportunity Assessment Up to 2027

Mobile Robot Market Size – USD 23.48 billion in 2019, Market Growth - CAGR of 23.6%,

VANCOUVER, BC, CANADA, April 5, 2022 /EINPresswire.com/ -- The Global [Mobile Robot Market](#) will be worth USD 117.89 Billion by 2027, according to a current analysis by Emergen Research. The growth of this market can be attributed to the increasing adoption of mobile robots in the manufacturing plants. Adopting intelligent technologies such as artificial

intelligence, deep learning, and mobile robotics drives the growth of the mobile robot market over the forecast period. The growing need for automation and self-optimization of the machinery in the factories to obtain increased productivity and enhanced operational efficiency is anticipated to fuel the development of the market.

Mobile Robot Market covers a comprehensive overview of the Mobile Robot market, future economic condition, competitive landscape mapping, supply and demand trends, and production and consumption analysis.

The market intelligence reports on Mobile Robot market dives deep into aspects including but not limited to the market size, growth and share across different regions to keep the stakeholders and business owners informed and help them make a wise business decision. For data-savvy product owners, sophisticated business evangelists and information-focused filed marketing personnel, looking to incorporate qualitative figures into their fundamental perspective the report presents an unrivalled statistical data on both past and future industry trends.

The report covers key points of the market, including the standards, regulations, and policy changes applied by the government on the industry for the coming years. The report encompasses thorough research carried out by the application of advanced analytical tools such as SWOT analysis and Porter's Five Forces analysis to pinpoint the growth trends and patterns. Factors likely to influence the growth of the market, current trends, opportunities,

The report offers a comprehensive overview of the competitive landscape and covers company profiles, production and manufacturing capacity, product portfolio, expansion strategies, and business initiatives such as mergers and acquisitions, joint ventures, collaborations, partnerships, and product launches and brand promotions among others.

Prominent Players Analyzed in the Report: Northrop Grumman, Kuka, iRobot, Honda Motor, Softbank Group, Kongsberg Maritime, DJI, Bluefin Robotics Corporation, Samsung Electronics, and Lockheed Martin, among others.

Some Key Highlights from the Report

The Unmanned Ground Vehicles segment held the largest market share of 40.2% in 2019. Increasing applications of the Unmanned Ground Vehicles in military and defense fields is expected to drive the segment's growth.

The domestic segment is forecasted to grow with the fastest CAGR of 24.8% over the forecast period. Implementation of Artificial Intelligence and the Internet of Things (IoT) has technologically advanced mobile robots and increased their usage for domestic purposes. The Asia Pacific region is expected to be the fastest-growing region over the forecast period. The high penetration rate of e-commerce channels in the region is a key contributing factor to the growing demand for autonomous mobile robots in the e-commerce and logistics companies to meet the higher customer demand and labor shortages.

Furthermore, the report divides the Mobile Robot market into key segments and sub-segments to offer an analysis of the product type and application spectrum of the industry. It also offers predictions about the segments expected to show significant growth during the projected timeline.

Emergen Research has segmented the global Mobile Robot Market on the basis of Product, Application, and region:

Product Outlook (Revenue, USD Billion; 2017-2027)

Unmanned Aerial Vehicles (UAVs)

Unmanned Ground Vehicles (UGVs)

Unmanned Surface Vehicles (USVs)
Autonomous Underwater Vehicles (AUVs)

Application Outlook (Revenue, USD Billion; 2017-2027)

Warehouse & Logistics
Defense & Security
Energy & Power
Mining and Minerals
Automotive
Entertainment, Education and Personnel
Domestic
Others

Market segment by region / country:

North America (US, Canada, Mexico, etc.)

Europe (Germany, UK, France, Italy, Russia, Spain, etc.)

Asia Pacific (China, Japan, South Korea, India, Australia, Southeast Asia, etc.)

South America (Brazil, Argentina, Colombia, Chile, etc.)

Middle East and Africa (South Africa, Egypt, Nigeria, Saudi Arabia, etc.)

The study delivers real answers for questions about market segmentation by types, region and application to power the overall market research for the forecast period. Subject matter experts behind the market analysis have collaborated with some of the highly acclaimed business owners to track records and estimate what is happening in areas such as technology innovation, production volume, end-use and product pricing. Research analysts have further remodeled their approach to present a report uniquely positioned to offer unmatched information on prominent manufactures, new entrants, exiting white spaces, acquisitions and mergers, collaborations and product launches.

Overview of the Mobile Robot Market Report:

Introduction, Product Scope, Market Overview, and Opportunities
Analysis of the Manufacturers with sales, revenue, and price analysis
Comprehensive analysis of the competitive landscape
Extensive profiling of the key competitors along with their business strategies and market size
Regional analysis of the market along with sales, revenue, market share, and global position
Country-wise analysis of the market along with types, applications, and manufacturing
Strategic recommendations to established players as well as new entrants

In-depth analysis of the risks, restraints, and limitations in the Mobile Robot industry
