

Bitcoin Miami 2022 Super Yacht

The best Blockchain Conference in the US is back and bigger than ever.

MIAMI, FLORIDA, USA, April 6, 2022 /EINPresswire.com/ -- Thursday April 7th The Bitcoin Super Yacht will be home to a network of blockchain industry power players.

The Financial Times has called Miami "The most important city in America". It's no surprise that the [Bitcoin Conference](#), which was one of the first in real life blockchain conferences to arrive on the scene globally, has grown to behemoth proportions.

Royal Princess Yacht

Florida was one of the few places in the world with extremely lenient and short lived lockdowns. The economy flourished, as did the event industry.

“

This event is a high level luncheon and networker for blockchain leaders to build community.”

Celia Evans

When the Bitcoin Conference launched in early 2021 people descended to the city from everywhere, and shortly thereafter picked up and moved there. The financial and intellectual capital that transplanted to Miami has been stunning. Miami has become the official home of the Blockchain industry in America and the innovative Mayor of the city, Francis Suarez, has committed himself to

maintaining Miami as a technology hub.

As the rest of the world as finally opened, Blockchain Conferences have exploded to be a weekly occurrence. Somewhere in the world on any given week there is a [cryptocurrency](#) or NFT event happening. This however remains the biggest.

The Miami Bitcoin Conference 2022 is for the serious investors, world leaders, DAO managers, the real preverbal "crypto whales". As such they don't just gather anywhere.

Thursday April 7th The Royal Princess Super Yacht in Downtown Miami will be host to a dynamic

forum for power players in the industry. The event is produced by the CEO of Planet Fashion, Celia Evans who is on a mission to bridge the worlds of Culture and Tech.

"This event is a high level luncheon and networker for blockchain leaders to build community." Says Evans. "There will be speaker panels, NFT Exhibits, Cocktail, Fashion and Tech. What could be better."
