

Kelly Slavitt to Speak at CCBJ's Legal Operations Executive Leadership Forum

sikka.ai's General Counsel and Head of Corporate Development, Kelly Slavitt, to discuss Legal Operations Scalability and Innovation at legal forum in New York

SAN JOSE, CA, USA, April 6, 2022 /EINPresswire.com/ -- In her career, Slavitt has proven her ability to navigate complex issues and situations surrounding company growth and scalability. She has over 20 years of experience working as General Counsel, both for small startups and multinational corporations such as General Electric (GE) and Reckitt

Benckiser LLC. Slavitt has been able to achieve revenue growth for companies by instituting compliance, risk management and revenue optimization strategies from a corporate development standpoint as well as through leading M&A transactions and proactive litigation

“

In order to scale properly, there needs to be a foundation to support such additional weight.”

General Counsel and Head of Corporate Development, Kelly Slavitt

management from a legal standpoint. Slavitt's novel ideas, experience and expertise in the healthtech industry fit hand-in-hand with [sikka.ai](https://www.sikka.ai)'s motto of “Festina Lente” and history of innovation as they continue to scale their company for rapid growth in the near future.

“As a company founded on technology, [sikka.ai](https://www.sikka.ai) appreciates how to maximize the benefits of technology and has done so in creating a retail healthcare SaaS business suite of products. The high demand created by these products led

its founder and CEO Vijay Sikka to the conclusion that scalability was going to be key to the company's future growth. But in order to scale properly, there needs to be a foundation to support such additional weight. The organizational design and structure we're scoping out now and starting to put into place will allow the [Flywheel](https://www.flywheel.com) to move at an even faster pace, while not losing the innovation edge that has brought Sikka the level of success it now enjoys.”

The poster features a dark blue background with white and light blue text. At the top, it reads 'CCBJ LEGAL OPERATIONS EXECUTIVE LEADERSHIP FORUM' followed by 'THE TARRYTOWN HOUSE ESTATE | APRIL 8, 2022'. Below this, the main topic is 'LEGAL OPERATIONS INFRASTRUCTURE: ORGANIZATIONAL DESIGN AND STRUCTURE FOR SCALABILITY & INNOVATION'. The sponsor is 'NEOTALOGIC'. A call to action says 'USE CODE SPEAKERVIP FOR COMPLIMENTARY ENTRY!'. Four speakers are listed with their photos and titles: Carolyn Barth Renzin (Chief Risk and Compliance Officer, Fanduel Group), Tara Sarnoff (Vice President - Legal Operations, American Express), Kelly Slavitt (General Counsel and Head of Corporate Development, Sikka.ai), and Jack Stanovsek (Director of Markets and Growth, Neota Logic). A small disclaimer at the bottom states: '*Complimentary offer is only valid for in-house and law firm professionals.'

Legal Operations Executive Leadership Forum hosted by Corporate Counsel Business Journal on April 8, 2022

There is no one-size-fits-all solution for scalability. Every company has unique challenges that hinder them from achieving the next level, and the only way to remedy that is to innovate. However, innovation is an inherently risky business. As one of the leaders in the AI and retail healthcare market, sikka.ai understands that providing a set of tools that can handle the mundane day-to-day tasks that take little risk or experimentation allows their customers to take the time to generate new ideas and explore different avenues to make their business grow.

Slavitt will be speaking about her experience with scaling companies and innovation at the [Legal Operations Executive Leadership Forum](#) hosted by Corporate Counsel Business Journal on April 8, 2022, in New York.

About sikka.ai

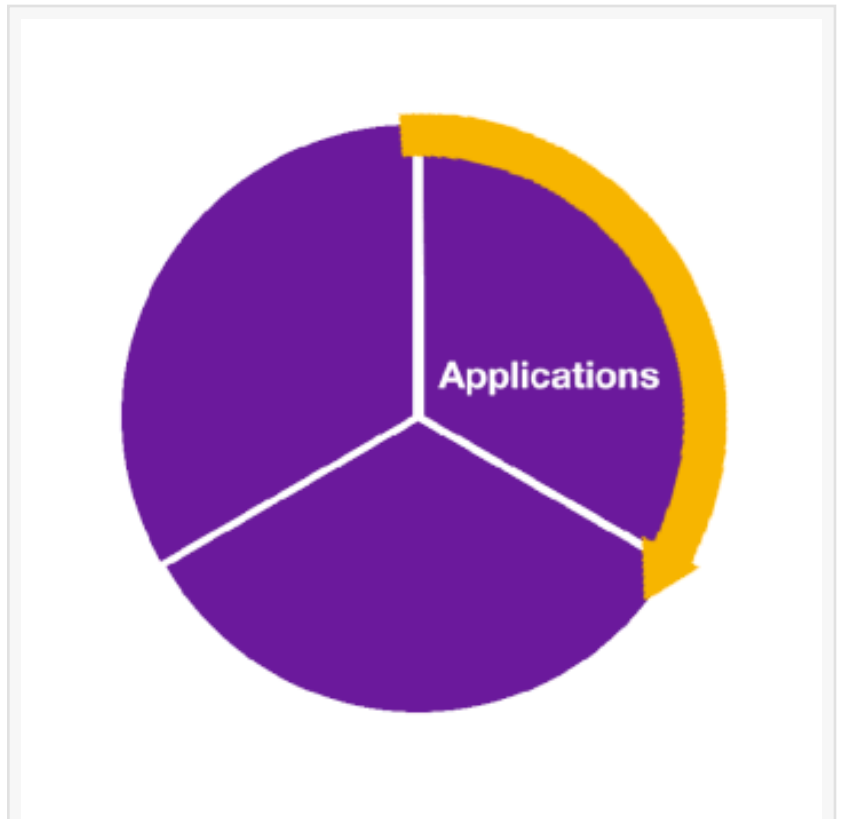

Sikka Software is helping to rethink the important retail healthcare market using an award-winning single API cloud platform with Artificial Intelligence and Predictive Analytics. Sort of like Stripe in payments and Twilio in communications, Sikka focuses on non-physician practices in dentistry, veterinary, optometry, chiropractic, orthodontics and oral surgery.

Sikka Software now has 35,000 practice installations and 120 million patients on its platform. The Sikka API Platform connects to 96% of the retail healthcare market and all practice management systems and financial systems practices use. There are 50 apps built by suppliers (many of them Fortune 500) on the Sikka platform and 4 apps that Sikka has built on its own. The company's vision is to become a global, real-time, platform that connects and empowers the patients, providers and suppliers.
