The Advocate says, "What does matter is to get compensated the Navy Veteran who now has recently diagnosed lung cancer-must be able to get specific of how they were exposed to asbestos on a navy ship, submarine or at a shipyard-and we need to emphasize the exposure must have taken place prior to 1982. Most people like this never realize that the \$30 billion dollar-asbestos trust funds were set up for them too.

"If the person we have just described sounds like your husband or dad anywhere in Mississippi and he can get specific about his asbestos exposure in the navy prior to 1982 please call attorney Erik Karst of the law firm of Karst

von Oiste anytime at 800-714-0303. As mentioned, compensation for a person like this might be substantial." www.karstvonoiste.com/
