half of this Olympic Bobsleigh Skeleton Season!" commented Dr. Wilhelm. "The athletes were dialing in with tensions rising and fewer races remaining in which to prove yourself ready and qualified for the Winter Olympic Games. I was now caring for two countries with athletes from Australia and the UK. And this mix of fine individuals was so much fun! I admired the grit and determination of these self-funded athletes, and this made me want to work even harder to help them achieve!"

Both the Australian team and the team from Great Britain were just as eager to utilize Dr. Wilhelm's expertise in injury treatment, rehabilitation, and performance therapy as a result of his invitation.
