The global electric dryers manufacturing market consist of sales of clothes dryers. The clothes dryers are extensively employed by the household consumers for carrying out the activity of drying clothes. The main function that is performed by the device is to soak up the moisture from the clothes, lessen the aroma level, and eliminate dust-mites from the clothes.

Global Dryers Market Trends

Dryer manufacturers are increasingly producing energy-efficient products to reduce carbon footprint and enable energy savings for the consumers. The rise of energy-efficient appliances can be attributed to the stringent government regulations on electric home appliances and advances in technology. Energy efficient appliances are designed to utilize minimum energy to complete the required task. Currently, over 80 countries have standards and labels for energy efficient appliances.
