

Introducing Flower Fam's Unique NFT Ecosystem – the Oasis

The project's mission is to spread peace and prosperity across the NFT space.

WILMINGTON, DELAWARE, UNITED STATES, April 10, 2022 /EINPresswire.com/ -- The creators of [Flower Fam](#) are pleased to announce the upcoming launch of its unique NFT ecosystem, the Oasis, which is designed to spread peace, prosperity, and joy across the NFT space.

Flower Fam is a brand-new [NFT art collection](#) consisting of 9,420 unique Flowers that are hosted in a one-of-a-kind NFT ecosystem called the Oasis. In the Oasis, users can connect with like-minded people, have a good time, and relax while their Flowers earn \$honey, or even participate in weekly harvest games. By being a part of the harvest games, holders can win a giveaway of 69% of the weekly secondary sales – an event the project hopes will give back to the community and members.

“Welcome to your new home, the Oasis,” says founder of Flower Fam, Demeter. “The Oasis was developed over the last two months by economists, our lead-dev, a tokenomics expert, creative minds, and the two founders, and we believe we pulled it off. It combines the right incentives, risks, and game-theory for people to be eager and excited to participate. All activities in the Oasis align with our core mission and each element plays a vital role, such as rarities, the utility token \$honey, staking, buying new seeds, bees and more.”

Flower Fam will be fully live on its launch date sometime in April.

About Flower Fam

Flower Fam was founded by Mr. Demeter, a professional in the Software-Tech Organization space. The project includes a collection with P2E elements, driven by its ERC20 utility and governance token, \$honey. At its core, Flower Fam is completely driven by the community (DAO) to ensure all members feel safe, at peace, and empowered all at the same time.
