Market Trends:

The growing global population and improving income levels of individuals are positively influencing the demand for household commodities and plastic packaging products. This, in turn, is strengthening the growth of the market. In addition, the increasing utilization of personal protective equipment (PPE) by healthcare professionals to prevent the spread of coronavirus disease (COVID-19) is positively influencing the market. Moreover, governing agencies of numerous countries are implementing stringent regulations to reduce harmful emission levels during the production process. Besides this, the escalating demand for durable and lightweight materials in the automotive industry to manufacture vehicles with enhanced operational efficiency and minimal fuel consumption is offering lucrative growth opportunities to key players.

Breakup by Classification:

- Polypropylene
- Polyethylene
- Others

Breakup by Application:

- Injection Molding
- Blow Molding
- Films
- Fibers
- Others

Breakup by End Use Industry:

- Automobile
- Construction
- Healthcare
- Electronics
- Packaging
- Others

Market Breakup by Region:

- North America (United States, Canada)
- Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)
- Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
