

Global Pharmaceutical Excipients Market Size And Market Growth Opportunities

*The Business Research Company's
Pharmaceutical Excipients Global Market
Report 2022 – Market Size, Trends, And
Global Forecast 2022-2026*

LONDON, GREATER LONDON , UK, April
11, 2022 /EINPresswire.com/ --

According to 'Pharmaceutical
Excipients Global Market Report 2022 –
Market Size, Trends, And Global

Forecast 2022-2026' published by The Business Research Company, the pharmaceutical excipients market size is expected to grow from \$8.13 billion in 2021 to \$8.60 billion in 2022 at a compound annual growth rate (CAGR) of 5.9%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The [pharmaceutical excipient market](#) is expected to reach \$10.88 billion in 2026 at a CAGR of 6.0%. The global surge in the sale of generic drugs contributed to the growth of the pharmaceutical excipients market.

The global pharmaceutical excipients market consists of sales of pharmaceutical excipients and related services. The excipient is a substance, not an active pharmaceutical ingredient (API) that has been evaluated for safety, and intentionally added in a drug delivery system. Excipient's major roles are to protect, support, enhance stability, bioavailability, patient acceptability, and assist in the effectiveness. The market consists of revenue generated by the company's manufacturing the pharmaceutical excipients by the sales of these excipients.

[Global Pharmaceutical Excipients Market Trends](#)

The increase in research and development in the pharmaceutical formulation to enhance the production process and product quality by using multi-functional excipients is a trend shaping
