The pharmacies and healthcare stores market consists of sales of pharmaceuticals and healthcare products by entities (organizations, sole traders, and partnerships) that sell pharmaceuticals and healthcare products such as drugs, medical devices, and other personal care products through pharmacies and other health and personal care stores.

Global [Pharmacies and Healthcare Stores Market Trends](#)

Pharmacies are increasingly using medicine vending machines to service customers, especially in remote locations where they cannot invest in opening an establishment and stationing pharmacists. The medicine vending machine is equipped with a phone, internet connection, a prescription scanner, an in-built POS machine, and up to 2,000 packs of commonly used prescription drugs. The machine identifies drugs with the help of a microchip attached to the
