

# Predictive Analytics Drives Efficiency In The Non-Durable Goods Wholesalers Market Processes

*The Business Research Company's Non-Durable Goods Wholesalers Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026*

LONDON, GREATER LONDON, UK, April 12, 2022 /EINPresswire.com/ --

Wholesalers are increasingly using predictive analytics in their businesses and is one of the emerging [non-durable goods wholesalers market trends](#). It is a robust tool for a wholesaler in today's era of the digital economy. A powerful in-memory

technology integrated with predictive analytics and ERP data efficiently transforms the whole process of interpreting the information. According to the non-durable goods wholesalers market research, predictive analytics utilizes past data to predict future outcomes. In addition, some of the applications also give predictive analytics to project customer profitability, improve marketing campaigns, and present model business for different scenarios. For instance, SAP HANA integrated with BW is a predictive analytical tool, widely used for wholesale distribution and materials management including the whitepaper industry.

The non-durable goods merchant wholesalers are adopting a robust and cohesive strategy for data analytics in management. This technology is being deployed to enhance supply chain efficiency, streamline operations to engage customers, and build loyalty, data has become critical for most retail operations. With the rapid growth in retail data and the availability of technologies to analyze data, it will become easier to identify and meet the needs and expectations of their customers, thus it is expected to drive the non-durable goods wholesalers market growth going forward.
