

Global Orthognathic Surgery Market By Offering, Indication, Surgery Type, End User, Region

Global orthognathic surgery market is expected to grow at an estimated CAGR of 4.89% over the forecast period.

PUNE, MAHARASHTRA, INDIA, April 12, 2022 /EINPresswire.com/ --

[Orthognathic surgery market](#) also known as jaw surgery market has witnessed immense developments in the last couple of years. This type of surgery is specifically done in order to correct multiple irregularities in major dental cases. These kinds of surgeries are performed by oral and maxillofacial surgeons. Several patients suffering from chronic jaw pain have suffered injuries due to an accident, require orthognathic surgeries and this is basically why this market is growing. Not just injuries or jaw pains, even in cases of deformities in facial skeletal, speech impairments and correction of protruding jaw, the jaw surgeries are needed.

The healthcare sector was devastated due to the dreadful COVID-19 pandemic. Healthcare infrastructure of several countries, rather the world was exposed as the novel infection claimed lives of millions. Though the pandemic brought a huge slump for the orthognathic surgery market, many public authorities are concentrating on organizations by creating more awareness about these organizations in the global market. This is forecasted to drive the growth of the orthognathic surgery market over the period of coming few years. Additionally, the demand for the orthognathic surgeries in regards with the cosmetics will also take the orthognathic surgery market ahead. Despite these types of surgeries being done for therapeutic purposes, the introduction of latest technologies is contributing massively for this market's growth.

Meanwhile, the orthognathic surgeries are a costly affair and this dents the growth of orthognathic surgery market. Especially the cosmetic procedures and all the instruments required for the surgeries are expensive. Due to complex nature of surgeries, expert oral and maxillofacial surgeons are needed which also increases the cost of the overall treatment. Due to the technological developments, the orthognathic surgery market is forecasted to witness tremendous growth over the period. The orthognathic surgeries are required for congenital deformities in jaw or cheek bones. The demand for orthognathic surgeries is also going upwards due to surge in the number of road accidents. Global orthognathic surgery market is expected to grow at an estimated CAGR of 4.89% over the forecast period.

By Indication, Medical Segment Dominates in Terms of The Market Share for The Orthognathic Surgery Market in 2021

Cases of chronic jaw pain are increasing each passing day as health issues like grinding of teeth are common in many people. The teeth grinding is associated with the amount of stress, which is result of today's fast-faced life which directly takes toll on the body.
